

NOT ALL ROOSTERS ARE THE SAME

Let's explore the charts of 8 Australian Federal politicians – two are ex-politicians with fingers in several pies, one is an ex-prime minister aspiring to claim that position again, and another was promised the job but never quite got the gig.

Most of them are similar in age and have served as servants of the people for longer periods of time, some in state politics. Many have stated Christian affiliations 50% are practicing Roman Catholics. Only one of them has no stated religious affiliation.

I have chosen to concentrate only on the conservative side of politics because the number of roosters is quite interesting. There are only 20 Cabinet

positions including Prime Minister. Two of those who made the list would like to be cabinet ministers again and one of them would like to be Prime Minister again.

This table demonstrates that, just because you are born in the year of the rooster, and even born in the year of the fire rooster (having matching stem and branches) you do not act or behave the same. This dispels the myth – you're a dragon so you will do this and behave like that. There is a little bit of truth in it. For example, all these roosters are not shy about speaking up in public. Who can forget Rob Oakeshott's 17-minute speech in support of Julia Gillard forming government in 2010.

2017 sees all these Roosters experiencing a clash to their year pillars. It is a 2nd degree clash so has less force, and as it is to the year pillar, the fire roosters are all turning 60, so the influence of the year pillar is in decline and for some like Tony Abbot it has lost the influence entirely because of the timing of their luck pillars.

THEIR CHARTS

1. Bob Katter

Hour	Day	Month	Year	Current luck cycle
Unknown	Yin metal	Yin metal	Yin wood	Yang wood 2010
Unknown	Rabbit	Snake	Rooster	Dog 2015

Bob Katter is a yin wood rooster, with a yin metal day master, and a second yin metal sitting next to him. He has a partial team of metal between the year and month branches. He also has two flower of romance stars in his chart (rabbit and rooster). He has always been a maverick and walked to the beat of his own drum, having become an independent in the Federal Parliament in 2001.

He entered his dog luck cycle in 2015. It forms a 6-harmony combination with his rabbit bringing career success. 2017 will restore his team of metal. He is likely to pick up disaffected One Nation senator(s) to form a stronger Katter Australia Party, which he formed in 2011.

2. Arthur Sinodinos

Hour	Day	Month	Year	Current luck cycle
Unknown	Yang earth	Yang water	Yin fire	Yang fire 2014
Unknown	Dragon	Tiger	Rooster	Monkey 2021

Has an interesting chart. He has dragon and tiger and when the rabbit comes along forms seasonal wood which is his power element. He has a favourable stem combination between year and month palaces.

He is a changing chart. He can form wood (rabbit coming in), fire (dog or horse coming in), or metal (ox or snake coming in). This means he is very versatile and flexible. He experienced these incoming branches in the 98 – 03 luck cycle (dog), 04 – 09 luck cycle – the yin fire in the luck cycle stem **fight to combine** with the yang water and yin fire natal chart stems. He was involved in the 2009 (yin earth ox) disastrous *utegate affair* (as was Abetz) he entered the rooster luck cycle then and it created a repetition of the rooster – therefore there was a fight to combine between the ox and the two roosters.

09 – 14 (rooster – metal), and 2016 monkey year combined with his dragon (house of spouse) to bring water which is his power element. He was a close confidant of immediate previous Prime Minister Abbott and was an advisor to previous conservative Prime Minister Howard. He was considered one of the most influential men in politics for quite some time until he had to step aside during the ICAC enquiry into dealings between the NSW Liberal Party and Water Holdings. The rooster luck cycle was not kind to him.

3. George Brandis

Hour	Day	Month	Year	Current luck cycle
Unknown	Yin earth	Yang fire	Yin fire	Yang metal 2013
Unknown	Ox	Horse	Rooster	Rat 2018

Has a partial team of metal – the ox combines with the rooster to form metal which is his power element. He also has 2 flower of romance stars (horse and rooster) which means that he can easily switch to follow metal or fire. He does this in the luck cycles 98 – 03, has a favourable stem combination 03 – 08, has a partial team of metal in 08

– 13, and 13 – 18 he has another stem combination between fire day master (yin wood) and yang metal luck stem.

Since 1993 all his luck cycles both stems and branches have combined with elements in his natal chart to bring favour to his career.

A third flower of romance star (either a repetition of those already in his chart) or the rat (2008) or the rabbit (2011) brings additional spice and interest to his life.

4. Peter Costello

Hour	Day	Month	Year	Current luck cycle
Unknown	Yang earth	Yang earth	Yin fire	Yang water 2010
Unknown	Horse	Monkey	Rooster	Tiger 2015

Has a changing chart which means he is also flexible and adaptable. He has two flower of romance stars in his natal chart. When a 3rd star comes along his very much favoured. This occurred in the 05 – 10 luck cycle. He is a yang earth day master sitting over a flower of romance star the horse. He can form fire, water or metal. He is a very influential man. He was the longest serving treasurer from 1996 – 2007, and in Sept 2008 became the Chairman of the World Bank Independent Advisory Board to provide advice on anti-corruption measures.

He was a founding member of the H.R. Nicholls society which is a conservative think tank. He was Deputy leader of the Liberal Party 1994 – 2007.

5. Tony Abbott

Hour	Day	Month	Year	Current luck cycle
Unknown	Yang metal	Yang metal	Yin fire	Yang wood 2016
Unknown	Dog	Dragon	Rooster	Dragon 2021

Is a Fei Kong chart. He can also easily become a competitive chart when his branches no longer have supportive metal or earth. As a Fei Kong man he's always keen to be in the position of jockey, never the horse. He is highly competitive and very harsh in his administration of favour or reprisals.

In 2006 he entered a yin wood stem luck cycle. It combined with one of his Yang metal to form a stem combination taking away his competitor. In the 2011 – 2016 luck cycle he was sitting over the snake which combined favourably with his

rooster forming a partial metal team. This made him unstoppable and confirmed upon him his sacred mission to take the Dauphin to Rheims. He has now entered a much less favourable luck cycle – that of yang wood. He will always be a Fei Kong man as it involves his day pillar and his month pillar.

Now that the monkey has nearly passed (2016) he cannot form the seasonal metal and thus falls back to a competitive chart. In the 2nd half of 2017 he might try to 'come back' under the influence of the rooster, but, because he has entered the 6th luck cycle this year the influence of the rooster has fallen away. Under the influence of the month of the ox (5th of January, 2017) he will make one last hurrah to challenge Malcom Turnbull but he will not pull it off.ⁱⁱ

6. Corey Bernardi

Hour	Day	Month	Year	Current luck cycle
Unknown	Yin wood	Yang wood	Yin earth	Yang metal 2008
Unknown	Rooster	Dog	Rooster	Horse 2013

Is a seasonal metal man when the monkey comes along (2016). He was in the monkey luck cycle 93 – 97. He is a yin wood man who makes a stem combination with Tony Abbott, strengthening Abbott by taking away a competitor (from Abbott). Bernardi, like Rudd (see previous articles,) has 2 roosters in his chart. This means that the tendency to say anything at any time is very strong. It will be his downfall in 2017 as it sees 3 roosters in his own chook yard. He is currently in fire luck (horse) which combines with the dog in his chart. He can also become a competitive wood when a pig or a rabbit come along. He is much happier when yin earth comes along as it takes away the potential for competition. He is threatening to set up his own ultra-conservative party and will probably try to do that in 2017. He may achieve it in the month of the snake, certainly he will be making all the right moves (in his own opinion) in the month of the ox (January 2017), as this is a special star for a yin wood day master like Bernardi.

7. Rob Oakeshott

Hour	Day	Month	Year	Current luck cycle
Unknown	Yin water	Yang fire	Yin earth	Yin metal 2011

Unknown	Pig	Rat	Rooster	Sheep 2016
---------	-----	-----	---------	------------

Oakeshott has a yin water day master (like Malcolm Turnbull). He also has a changing chart with two flower of romance stars in his natal chart. He can form seasonal water in the presence of the ox and, also metal (as the ox can combine with his rooster to form a partial team of metal). He had branch combinations going on with his natal chart from the luck cycle 1996 onwards. He, along with Tony Windsor were very important figures in the Julia Gillard government (2010), together they helped her form a minority government. He was personally very supportive when Tony Abbot was vilifying her, and made dreadful personal attacks on her and her relationship with her recently deceased father. He reached over in the cross-bench seats, and said to her that *her father would be proud of her*. His rooster, and Gillard's Ox (year) combine to complete Oakeshott's seasonal water and or partial team of metal.

He entered NSW state politics in 96 – 08. He was very popular, soon becoming an independent in the successive parliaments. In 2008 (yang earth rat year) in his monkey luck cycle (water team) he entered Federal politics as an independent candidate and won virtually every booth across the electorate. He did not stand at the 2014 federal election having been diagnosed with Graves Diseaseⁱⁱⁱ in May 2012. He stood again in the 2016 federal election failing to secure the seat but turning the seat into a marginal seat going neck to neck with the National party candidate. He is one of the few Australian politicians with a Degree in Government.

8. Eric Abetz

Hour	Day	Month	Year	Current luck cycle
Unknown	Yang water	Yin water	Yin fire	Yin fire 2014
Unknown	Tiger	Ox	Rooster	sheep 2019

Emigrated to Australia in 1961 age 3 with his family. Age 64 he had a stem combination present between his yin fire natal year stem and the first luck cycle stem of yang water.

From the 1989 luck pillar, he has had branch combinations formed until the end of the 99 luck cycle (dog). He is a resource man who can switch to competitive water if there are no supportive combinations available. He is a yang water day master with yin water sitting in his month stem.

For a yang water day master the monkey and the dog are special stars. His luck cycle branches from the '89 luck cycle are: dog (special star) forms a combination with the tiger in his house of spouse to form fire which is wealth for a yang water man. Rooster '99 luck cycle combines with his natal ox and rooster to form a partial team of metal switching him to a resource chart.

2009 luck cycle was the monkey which is one of his special stars. 2014 saw him enter the yin fire luck cycle which formed a combination with his day master of yin water bringing career success. He was leader of the senate under Tony Abbott in the 2014 (yang wood horse) cabinet.

He is closely aligned with Christian fundamentalism and the far right of the conservative party. He lost favour when Turnbull won the Conservative leadership and struggled to retain his very powerful influence over the Tasmanian Liberal Party on 2016. He is a likely candidate to combine with Cory Bernardi and George Christensen and probably with Tony Abbott as leader again. Christensen has two horses and a pig in his chart and is highly unlikely to stay in anyone's shadow for long. Abetz has repeatedly called on Turnbull to readmit Abbott to the cabinet. Those calls have fallen on unfertile ground.

CONCLUSION

You can see that all these roosters bring different qualities to the public arena.

All of those with two or more Flower of Romance stars in their chart will find some challenges in the year of the fire rooster as it will bring a third rooster.

The challenge for us all in the year of the rooster is only speak the truth. Only speak up and out when we are absolutely sure of the facts. Ask ourselves if it is our business anyway, and then be fearless in our positions. If you have not been diligent enough to research more thoroughly the situation / event, then turn your tongue 7 times in your mouth before you speak and add confusion to the already confused.

*At all times let us be civil in our discourse and chose fact over
fiction*

If you are interested in this style of analysis, then I highly recommend Dr Jin Peh's new book [Four Pillars of Destiny – Exploring Water Charts](#). I confess to being one of the editors on the book.

i [A quote from the ABC News on-line](#)

'Treasury provided the committee with pages of emails Mr Grech exchanged with Liberal figures such as Mr Turnbull and John Howard's former chief of staff, Arthur Sinodinos.'

ii There are certain people in the cabinet who add strength to Abbott. They have stem combinations or provide missing metal to help him in his mission. Bernardi, Brandis, Abetz, Cormann, Morrison (sits on fence), Nash (on the fence), Ley (a lot of metal in her own chart????), Hunt.

iii Graves disease is also known as toxic goiter. It is the most common cause of hyperthyroidism.
