

## SOME FIRE ROOSTERS BORN 1957

Here I explore a list of folk born in the year of the fire rooster (1957), and then take 4 of their charts and analyse them to demonstrate the different lives these folk live. A random fact I found whilst researching is, many Astronauts from different countries were born the year of the fire rooster.

### CHRISTOPHER LAMBERT:

has a very special configuration in his chart. He has all four lovebirds or flowers of romance stars. This contributes enormously to his success. It means as they are all are the peak of each of the four elements, that he also has a changing chart. It means that he can become follow metal, follow wood, follow water, follow fire. There are five elements but only for belong in the Peak or prime positions. This means that there are only four flowers of romance stars. His luck pillars, because he is a male, range backwards. His first luck pillar starts at age 7. The yin water forms a combination with his yin fire natal year of birth. The next combination is between a

tiger at age 12 through 16 and it has a possible combination with the horse but it is too early for the Horse to combine as it is located in the Natal hour pillar.

The next combination that forms is at age 22 through 26 when the ox combines with his rooster bringing him success. It forms a partial team of metal. Here's natal day pillar is brick located at age 27 through 36. This would have been a peak time for him in terms of his career.

Then age 42 through 46 the pig combined if the rabbit in his chart to form wood and he switched to a follow wood formation. Then age 47 through 56 he had a very special configuration. Age 57 through 66 he has a replicated natal year pillar. He's able to switch two one of the four follow charts; fire when he encounters the dog or the tiger, Metal when he encounters the ox or the snake, Wood when he encounters the pig or the sheep, and water when he encounters the dragon or the monkey.

He had his International debut in 1984 in *Greystoke: The Legend of Tarzan, Lord of The Apes*. He had his first lead role that same year. In 1985 he starred in Luc Besson's *Subway*, in 1986 He also featured in *Highlander* and this became his most famous role. From the 1990s onward he was active as a French film producer.

From 1988 through 1994 he was married to Diane Lane. In '99 he married again and from 2007 has been in a relationship with Sophie Marcel. They married in 2012 but announced their separation in 2014.

He has extensive business interests owning a mineral water business, food processing plant and produces the not too shabby Côte-du-Rhône wines.

### CLAUDIE HAIGNERÉ:

being a female, her luck pillars flow forward. She has a partial team of metal, making her a follow metal (power) chart most of her life, until she encounters the horse or the tiger and the monkey. Her special stars are the monkey and the ox, and her nobleman stars are the monkey and the rat. At age 37 luck cycle 42 through 46 she had a replicated day branch which brings the likelihood of romance or marriage luck cycle 47 through 52 she had a special stem combination between her two yin wood stems in her day and month palaces and the yang metal in the first half of that luck pillar.

She studied medicine at the Faculty of Medicine and Faculty of Sciences, Paris. She went on to obtain post graduate certificates in biology and sports medicine, aviation and space medicine and rheumatology.

She visited the Mir Space Station for 16 days in 1996 and in 2001 became the first European woman to visit the international space station. She entered French parliament as the minister delegate for research in New Technologies from 2002 through 2004 and as Minister delegate for European Affairs from 2004 through 2005.

She is a commander of the Légion d'honneur.

### CAROLINE KENNEDY:

Has a very versatile chart. She can follow wood as she has a partial team of wood, she can follow metal in her youth, and follow water making her dominant in her older age. She has her Nobleman Star, rabbit in her house of spouse palace. She has a stem combination in her first luck pillar age 3 through 8 indicating a high possibility of separation from Grandparents.

Luck Cycle 18 through 23 she becomes followed metal; Luck Cycle 38 through 42 she has a very good chance of being married because her spouse branch is repeated and she becomes a follow wood or output chart. Luck Cycle 43 through 52 both the stem and the branch of her natal hour pillar is replicated.

She was three years old when her father was sworn in as president of United States of America. She was just short of her sixth birthday when he was assassinated November 22, 1963. Her surviving brother John Jr was born just before her 3<sup>rd</sup> birthday.

In 1968 (yang earth monkey year), in the Rat Luck Cycle her uncle, Robert F Kennedy was assassinated. He had become a surrogate father to her and her brother.

1975 (yin wood rabbit year) in the Ox Luck Cycle, her mother married shipping Tycoon Aristotle Onassis. The same year she was staying with Conservative MP Clive Fraser and his wife and was nearly caught up in the bomb attack that targeted the MP. She had become a follow metal chart at that time and the rabbit attacked her year branch, but as it was also her nobleman it helped protect her.

She graduated from Radcliffe college and worked at Manhattan's Metropolitan Museum of Art, meeting her future husband there. She went on to receive a Doctor of Jurisprudence from Columbia law school and most of her life's been in the law or politics, as well as education reform and charitable works.

She has served on many boards and charitable organisations and in 2013 was appointed the US ambassador to Japan. She flirted with entering politics but resiled from the offer, taking up the ambassadorship instead.

### CAROLE BOUQUET:

has a Fei Kong chart. That is, she has yang water sitting over the dog in her house of spouse, when she meets a yang earth, yang water, or yang metal dragon or dog she becomes a full-on Fei Kong. She also has a full seasonal combination of metal which means that she will remain a follow metal chart for the whole of her life until the dragon or the rat comes along then she switches to dominant water. When the horse or the tiger (current luck cycle) come along they will try to form fire but it will not disrupt the chart.

Since 1977, she has acted in over 50 films. She played Bond girl Melina Havelock in the 1981 *For Your Eyes Only*. She has acted in numerous mainstream European films through the 80's until now, and continues to work extensively in France.

She was a model for Chanel in the 1980s through 90s, and has served on the jury of several international film festival including Cannes.

1982 through 1985 was in a relationship with Jean-Pierre Rassam, and 1997 through 2005 in a relationship with Gérard Depardieu.

1981 she gave birth to her 1<sup>st</sup> son Demetri and in 1987 she gave birth to another son Louis to Francis Giacobetti. Married to Jacques Liebowitch in 1992 and they divorced in '96.

From her yang water luck cycle through to her tiger luck cycle there are stem and branch combinations present with her natal chart. Yang water Luck cycle forms a stem combination with her yin fire natal year stem. The Yin water luck cycle forms a stem combination with her natal yang earth month stem. And her Yang wood luck cycle forms a stem combination with her natal yin earth hour stem. Her special stars are monkey and dog, both of which are in her natal chart. She appears to be a very canny businesswoman with interests in food, vodka, cosmetics and perfumery.
